

Amendments to the specification:

Please add a description of figure 3A in the section of BRIEF DESCRIPTION OF SEVERAL VIEWS OF DRAWING

Fig 3.A

Note that it is prior art.

It shows large radius circular coil and fluoroscopic facility from an angulated view.

13 U arm cath lab with fluoroscopic facility

14 large radius circular coil

The U or C arm cath-lab can rotate in any plane and offer fluoroscopy facility. This will help in desired alignment of large radius circular coil and the PPM/ICD box
